# ALLY 1090

*When you need to maintain a delicate sense of touch and a confident level of protection.*

**Alloy 1090 is the hardest known metal, used for the most demanding tasks, such as rock drilling. And Ally 1090 is your best choice for the tough jobs that require an extra level of hand protection. It's time to partner up!**

**High performance, polyethylene fiber, cut resistant gloves.** 13 gauge HPPE knitted synthetic shell. Grey polyurethane coated palm & fingers.

ANSI Cut Level 3 resistant. CE Abrasion, Cut and Tear Level 4. Excellent flexibility and dexterity, and with a great grip. Seamless and breathable construction provides a better and more comfortable fit for long term use. The longer cuff extends the protection area. Lint and fingerprint free.

Superior dexterity, cut protection and resistance to oils makes these gloves ideal for machining and manufacturing, parts assembly, packing, automotive repair, glass handling, HVAC repair, recycling, and more.

Each pair is individually packaged in its own polybag. Available in sizes XS - XXL. Packed 6 dozen per case.
