Your eyes are windows to the beauty of the world. Protect them always.

In ancient Rome, Venus was the goddess of love and beauty. Venus is also the brightest planet in the sky. You will love our Venus X safety glasses not only for their beauty and bright design but also for the extreme protection they provide for your eyes.

Armor Optics is our cornerstone line of high performance safety glasses and goggles. We don't make glasses that fail quickly or have to be replaced often. Instead, we endeavor to generate repeat business through high customer satisfaction and positive word-of-mouth. You can count on our safety glasses and goggles to provide maximum protection and performance for users with their premium quality, distortion-free lenses. Consistency in lens clarity, comfort, care...and competitive pricing make Armor Optics your *best* choice for eye protection products. Always look to ValCrest for the peak of value.
